### **FSRF Indirect Costs Policies**

Humane America Animal Foundation (HAAF), that disburses Food System Research Fund grants, has the following policy regarding indirect costs of funded research:

- For independent researchers, no indirect costs are covered.
- For non-profit research organizations, indirect costs are covered up to 10% of the total grant amount. A detailed budget of indirect costs needs to be submitted at the time of application.
- For university-affiliated researchers, indirect costs are covered up to 10% of total grant amount. An exception can be made for universities in which required minimum indirect cost slightly exceeds our 10% maximum. To obtain an exception, please indicate that you are requesting such an exception in your application, and we will follow up with you to obtain required university policies documentation.

Exceptions to this policy can be granted upon mutual agreement of grant applicants and HAAF.
